```
reddit <- read.csv( 'reddit_r_compsci_100916.csv' )
View(reddit)
```

The screenshot shows the RStudio environment with the following components:

- Title Bar:** /Users/Adam/git/ds4100/homework6 - master - RStudio
- Environment Pane:** Shows 'Global Environment' with 'Data' containing 'reddit' (28 obs. of 24 variables).
- Console:** Displays the message "R is free software and comes with ABSOLUTELY NO WARRANTY. You are welcome to redistribute it under certain conditions. Type 'license()' or 'licence()' for distribution details." followed by "Natural language support but running in an English locale". It also shows the workspace loading path: "[Workspace loaded from /Users/Adam/git/ds4100/homework6/.RData]". At the bottom, the commands `> reddit <- read.csv('reddit_r_compsci_100916.csv')` and `> View(reddit)` are entered.
- Data Viewer:** A table with 24 columns: url, Rank.number, Rank.Image, Rank.Image_alt, Score.value, Scoreunvoted.value, and Scorelikes.value. The first 20 rows are visible, showing URLs from https://www.reddit.com/r/compsci and their corresponding ranks and scores.
